

Novin[®] S

Stress Control

SUPPORT - SOLUTIONS - RESULTS

MarsSyt

An Agricultural Company
Since 1995

A unique, multifunctional preventative approach to counteract the negative effects of stress.

DAIRY CATTLE

LESS STRESS WITH NOVIN[®] S

Dairy cows are susceptible to stress-triggering factors that can have a lasting effect on performance and animal health, including:

- *Reduced dry matter intake*
- *Lower milk production*
- *Impaired reproduction*
- *Immune suppression*
- *Increased risk of infections and diseases*

The negative impact of these stress factors is worsened and amplified in the presence of toxic contaminants such as mycotoxins and pathogenic bacteria.

Toxic contaminants decrease the function of key organs, such as the liver and kidneys and have a significant negative impact on the immune and reproductive systems.

FEATURES AND BENEFITS

Novin[®] S is a blend of different active ingredients to ensure a **multi-functional approach** to protect and support against toxic contaminants. When fed consistently, **Novin[®] S** helps cows manage stress and supports critical immune functions.

Novin[®] S

SCIENTIFICALLY PROVEN MODES OF ACTION

Liver and Kidney Support

Novin[®] S includes selected plant extracts proven to support organ function in case of toxin stressors.

Preventing Oxidative Stress

Selected protective antioxidants provide cellular support against the damaging effects of free radicals on intestinal microflora, tissues, and cells.

Reducing Immune Suppression & Strengthening Animals' Natural Immune Response

The use of selected plant extracts and specific, biological response modifiers helps reduce immune suppression and strengthen animal's natural immune response.

FEEDING DIRECTIONS

Maintenance

Dairy Cows: 20 g/hd/day

Dairy Heifers: 15 g/hd/day

**Feeding rates may need to be adjusted depending on stress and risk.*

Available in 25 kg bags

Novin[®] S is a registered trademark of Innovad.
